

# Career Workshops – SS 2021/2022

In the summer semester of academic year 2021/2022, sixteen career workshops were held under the authority of VŠE Career Centre. The career workshops were led in both English and Czech by professional career consultants, coaches, HR consultants and other specialists. The topics included:

- *Procrastination, efficient time management, how to study well*
- *CV and motivation letter*
- *How to start up a career*
- *How to prepare for an interview*
- *Work-life balance, starting a career, corporate culture*
- *Self-employment set up and operation, accounting and taxing of the self employed*
- *Personal income tax return*
- *Establishment and operation of limited company Inc., accounting and taxes and legal matters of legal entities*
- *Approaches to personal growth*

The workshops took place throughout the whole summer semester with the exception of the examination period with balanced representation of virtual and in-person events. Workshops were evenly distributed throughout the whole semester, however, during the Job Fair ŠANCE, taking place in April 19-21 2022, full four career workshops took place.

## ***Selected reviews by students who took part in the workshops in Summer Semester 2021/2022***

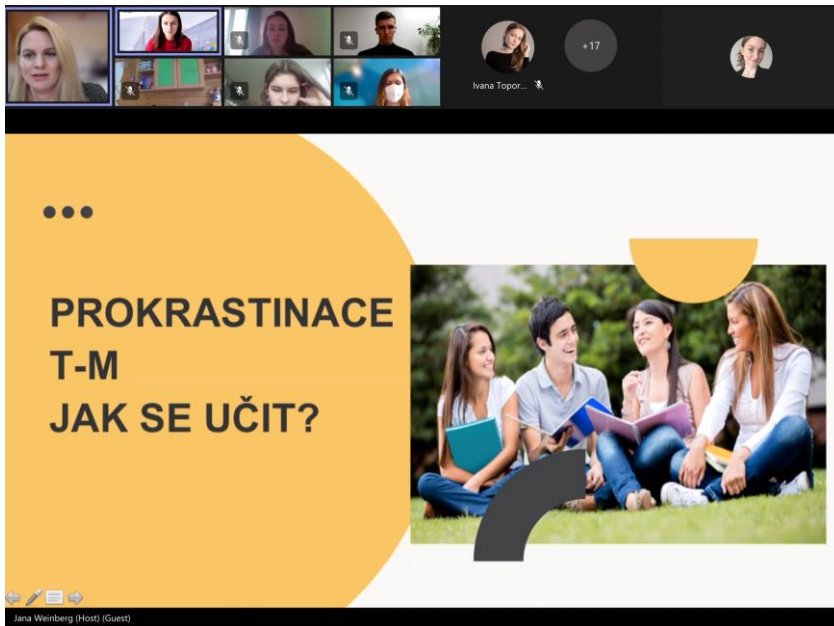

„I wanted to learn the correct way from practice and from a personalist point of view of how to prepare for a job interview. What to use and what to omit. I liked the usage of specific examples from experience and advice offered during the workshop. The workshop was held online which suited me well mostly due to time constraints. It was great and very helpful.“

„The atmosphere at the workshop was relaxed and the career consultant used examples from practice to illustrate her points.“

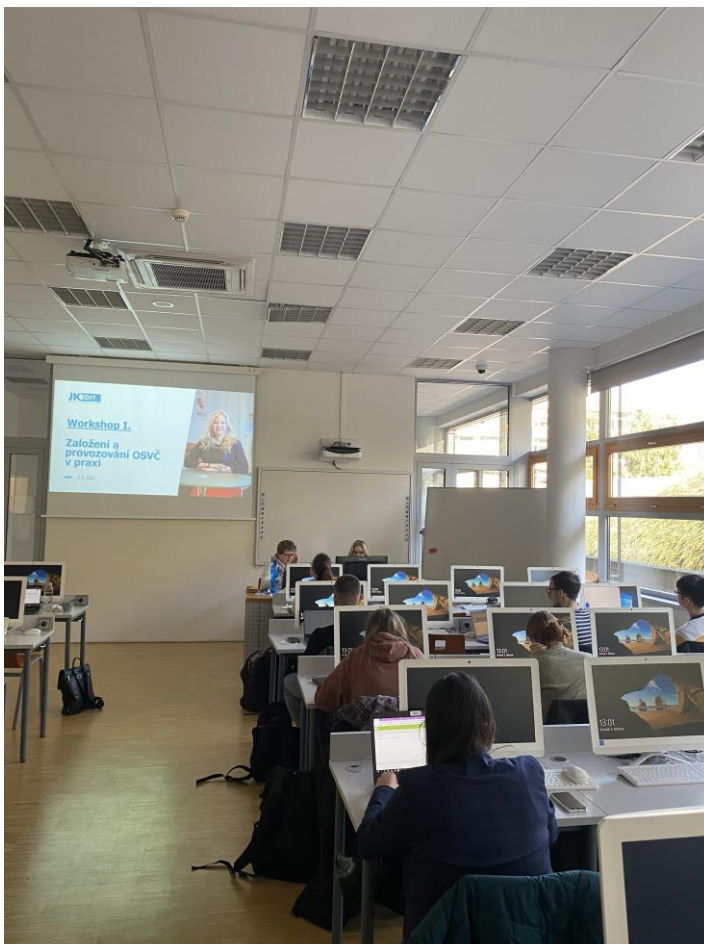

„I am currently looking for my first job after university and so I was intrigued by the „Work-like balance“ topic as I would like to learn to work around my tendency to workaholism. I was very satisfied with the in-person type of workshop and I liked the sharing of personal experience of the presenter, his preparedness and shared examples from practice.“

„I really liked the way the topic „CV and motivation letter“ was presented. The atmosphere was friendly and I even laughed a few times. I learned many new things. I was happy to gain an insight into the inner workings of HR and learn about the way CV's are evaluated. The consultant knew perfectly what she was talking about and explained everything using real-life examples.“

Career Centre VŠE thanks all of the career consultants for their cooperation as well as all the career workshop participants. We are already preparing more career workshops for Winter Semester 2022/2023, which will be published on the Career Centre VŠE website (<https://kc.vse.cz/>) before the start of the semester.
